### **Explanation:**

Schools are placed by enrollment and geography. For geography there is not a clean break between the MVL and Mtn VL leagues. Who is which division needs to be discussed by the schools involved. This proposal can allow schools to fill byes with non league opponents within their division. The SVL will play each other once and the other four leagues will play a double round and also have six league games. With some school districts only funding league games this proposal allows all conference teams guaranteed six games with three being at home every year.

SVL- All teams are Division III and will have six league games

MVL- All teams are Division IV and will have six league games

Mtn VL- All teams are Division IV and will have six league games

SCL Little 4- All teams are Division IV and will have six league games

SCL Big 4- Three teams are Division III and one is Division IV and they will all have six league games.
