NSCIF BASEBALL PLAYOFF QUALIFYING GUIDELINES

I. DIVISIONS

The number of schools that play Varsity Baseball in the NSCIF will be divided into six (6) Divisions according to their previous year 9-12 CBEDS enrollment. The divisions will consist of 10 schools in each of the first 5 divisions and the 6th division will be made up of the remaining schools fielding baseball teams.

II. ADVISORY COMMITTEE

The Baseball Advisory Committee consists of one representative from each League.

III. SEEDING COMMITTEE

- A. The Seeding Committee shall consist of the NSCIF Commissioner, the Playoff Committee Chair, and the Baseball Committee Chair. A designee may replace any of the committee.
- B. If a school decides that they do not wish to participate in the NSCIF Championships, the school administrator must notify the Commissioner's office by Wednesday, 12:00 Noon, on the Wednesday prior to the first round of the Playoffs. That team will be eliminated and the Commissioner will then notify the next ranked team of their qualification as established by the Playoff Points. This will continue until the vacated spot is filled. In the event that there are no teams available, a BYE will be awarded to the appropriate seed(s).
- C. In case of a tie by points the following Tie Breaker will be used:
 1. League Head to Head competition.
 2. Non-League Head to Head competition.
 3. Common Opponents.
 4. Overall winning percentage.
 5. Play-off (for 8th seed only).

IV. GAME SITES AND TIMES

- A. The highest seed will host throughout the elimination games. The site location may be changed by mutual consent of the participating teams with approval of the NSCIF Commissioner's office.
- B. For the Championship game an alternate site will be selected at one of the following community college fields: Butte, Feather River, Lassen, Siskiyou, Shasta, or Yuba. The game will be played at the site of the community college nearest the highest seed if available. Coaches may mutually agree to play at a different site. If consensus is not achieved, refer to the Commissioner. **Note:** The Baseball Advisory Committee will review and evaluate the selection of the Junior College sites for the Championship contests after one year.
 - *If that site is not available coaches may mutually agree to play at a different site.*
 - *If consensus is not achieved, Championship game will be played at nearest Division 1 facility ... Chico / Doryland / Foothill / Shasta*
 - *If division 1 facilities are not available the championship game will be played at the facility of the highest seed.*
- C. The Host School shall recommend game times. If consensus is not achievable, refer to the Commissioner.

V. QUALIFICATION AND SEEDING CRITERIA

- A. Qualification-Each Division shall be single elimination, eight-team tournament. If there are less than eight (8) teams in Division VI, the Seeding Committee has the option to have a four-team tournament.
- B. Seeding Criteria for Qualifying Teams-Teams will be ranked in their Division According to the following point criteria:
1. League Record-Divide the number of league games played in to the number of league games won. Multiply that number by ten (10). Then multiply by 2 to give the League Finish its weighted amount.
 2. Non-League Record-Divide the number of non-league games played into the number of non-league games won. Multiply by ten (10). If a school does not play at least 5 non-league games during the season their record will be adjusted to reflect 5 games. For example: School A is 3-1 in non-league games, their non-league record will be recorded as 3-2 for seeding formula purposes.
 3. Divisional Opponents-Divide the number of divisional games played into the number of divisional games won. Multiply the number by ten (10). Then multiply by 2 to give the Divisional opponents its weighted amount.

If a school does not play at least 4 divisional opponents during their season their record will be adjusted to reflect 4 games. For example: School A is 2-1 in divisional opponents their divisional record would reflect 2-2 for seeding purposes.

4. All League Champions will be guaranteed a home game in the first round of the playoffs. After initial seeding is complete, League Champions will replace a non-League Champion to assure that they have a host team seed. Exception: If there are more than 4 league champions in one division, all league champions will not receive a home contest in the first round.
5. The total of the above three criteria will determine the school's rank in their respective Divisions.
6. Teams will not be seeded outside their league finish.
7. **It is imperative that all schools report their scores to the "MaxPreps.com" so that the information posted on the website is accurate. Schools are responsible for reporting any errors to MaxPreps.com or the Section office (528-9300, Fax 528-9333) before the Section seeding meeting. If information is inaccurate, seeding information must be submitted to the NSCIF office by 10:00 a.m. by schools on or prior to the Wednesday following the final contest date. (See Appendix C).**
NOTE: See Appendix A for examples and worksheet.

PROPOSAL TO BUNDLE REGIONAL TELEVISION BROADCAST PACKAGES INVOLVING SCHOOLS FROM MULTIPLE CIF SECTIONS

Acting on behalf of multiple CIF Sections which agree to participate, it shall be the responsibility of the CIF State Office to negotiate, set the rights fee to telecast and contract any contest hosted by a CIF member school within the impacted CIF Sections that will be broadcast on a regional or national basis via an over-the-air station, cable outlet made available to multiple cable service providers, or satellite transmitted station, outlet or programming network.

Schools participating in any such telecast will be compensated for any additional costs directly attributed to providing additional facilities or staffing in support of that telecast. Additional services and staffing to be provided must be approved, in advance, by the CIF State Office.

Telecasts of non-playoff contest on a school or school district owned television station, or by a local cable television provider (e.g. local originator) where the broadcast is not provided to another provider nor broadcast or re-broadcast via satellite or over-the-air, are excluded from these bundled packages.

QUESTION: *What is an over-the-air telecast?*

ANSWER: *A telecast provided over the public airwaves that can be received without need of a cable, satellite or pay-per-view arrangement.*

QUESTION: *What is a cable broadcast on a station made available to multiple cable service providers?*

ANSWER: *A network that provides programming to more than their own cable provider. ESPN, College Sports Television Network, the Fox Regional Networks and Comcast Sports Net are examples of networks that distribute their programming to multiple service providers including satellite television distributors (e.g. Direct TV and DISH TV).*

QUESTION: *What is a local cable television broadcast that is excluded from this rule?*

ANSWER: *Any telecast that is exclusively delivered to local cable subscribers by a local cable originator and exclusively delivered via the same local cable system. Such a broadcast is limited in distribution and not considered regional.*

Fiscal Impact upon Member Schools:

No negative impact to school. Potential for positive economic impact to individual member schools. The host school for these broadcasts will be protected from expenses directly connected to the broadcast (added staff and security requirements, facility

modification). This proposal will allow the CIF State Office to negotiate with commercial television providers for rights fees for any and all games where currently fees are not being paid in most cases. As an example, during the 2006 high school football season, Comcast Sports Net produced and high school game of the week involving schools representing five different CIF sections. No rights fees were received by any of the participating schools and some host schools incurred substantial financial expense while providing extra services or extended staffing hours to accommodate the television production.

Talking points on Proposal To Bundle Regional TV Broadcasts:

Why:

- Create/expand negotiable TV value of high school athletic contests
 - Similar contractual structure as college conferences and other states around nation.
 - Opportunity to generate new revenue from existing source that is currently generating none.
- Eliminate expenses and reduce hassle incurred by schools
 - Broadcasters to contact CIF State Office rather than schools directly
 - Schools to be reimbursed for added TV expenses (security pre/post, additional facilities)
- Potential opportunity to address Title IX issues in exchange for TV rights.

Pros:

- New revenue opportunity from existing games that generate none currently
- NO impact on local cable, school or school district broadcast of regular season.
- Decreased expenses to host schools incurred supporting broadcasts
- Title IX opportunity
- Less hassle directly to schools; contact to come through CIF State Office staff

Cons:

- Unknown value if passed; subject to negotiation but no negative revenue potential either.
- Contracted TV outlets would receive first-chance of games but could not exclude broadcast of other games nor replay by local cable, school or district stations during regular season.

Added Points:

- Schools would not be forced to change a game date to accommodate TV.
- Primary contact for games moved to CIF State Office; CIF State Office would then contact schools.
- Future potential for new revenue directly to schools is unknown and not presently proposed. Could be added in future depending on future developments and success.
- Proposal changes none of the existing playoff broadcast policies.

Re: Request Exception to Bylaw 300.2 D for Football

February 19, 2007

Problem

Several times over the past five years, schools in the smallest 11-man football league (Evergreen League) have dropped or not fielded a J.V. football team. This has always been due to a lack of players. Few schools in this league have Youth Football Programs and rely heavily upon the J.V. years for instruction and player development purposes. Motivating players and keeping them interested and focused over a two and sometimes three week period without a game is challenging and can be detrimental to the growth of the individual player as well as the program. Schools are currently not moving players to the varsity level after league play begins because these players are no longer eligible to compete at the junior varsity level for the remainder of the season. Also, expanding rosters would assist small squads by giving them additional options for when scores become one sided.

Proposal

Create an exception to NSCIF Bylaw 300.2 D for football when a school does not field an 11-man football team as long Bylaw 1900.1 is complied with. Possible language to amend the NSCIF Bylaws and Constitution:

J.V. football players may participate at the varsity level when an opposing school does not field a J.V. team. They may return the following week as an eligible player at the junior varsity level. Bylaw 1900.1 Age Requirement must be complied with.
