Justification:

While University Preparatory School (U-Prep) has a consistent enrollment of 350+ students, our location in Redding means that our enrollment is drawn from all over the Shasta County. As a charter school, our potential student population also has the choice of attending their prospective comprehensive site (Including Central Valley, Shasta, Enterprise, Foothill and Anderson High Schools). These larger sites tend to draw many of the more competitive athletes with the opportunity to play at the Div. I or II level, especially in football, where the athletes involved in the Pop Warner programs tend to stay together. Consequently, we have seen that U-Prep can be consistently competitive with primarily Div. V schools despite their smaller enrollment.
